

**UNISYS Corporation**

**Subcontract in Support of the Transportation Security Administration (TSA)**

**August 2002 - Present**

***Systems Engineering Support Services***

As a subcontractor to UNISYS in support of TSA, we assist in the management of the TSA Command Information Center (CIC), to include: help desk support, user account creation including assignment of user names and passwords, network support, and other information systems support services. Process user agreement forms, ensure proper loading of client software, and supervise overall functioning of VPN help desk operations.
